Molecular and Biochemical Parasitology 74 (1995) 251–252

MOLECULAR AND BIOCHEMICAL PARASITOLOGY

Contents of Volume 74

Research Papers

Transient expression of luciferase in *Entamoeba histolytica* driven by the ferredoxin gene 5′ and 3′ regions
C.A. Gilchrist, H.L. Streets, J.P. Ackers, R. Hall (UK) 1

***Plasmodium falciparum* glutathione reductase exhibits sequence similarities with the human host enzyme in the core structure but differs at the ligand-binding sites**
S. Müller, K. Becker, B. Bergmann, R.H. Schirmer, R.D. Walter (Germany) 11

Characterisation of a novel Kunitz-type molecule from the trematode *Fasciola hepatica*
S.E. Bozas, M. Panaccio, J. Creaney, M. Dosen, J.C. Parsons, G.V. Vlasuk, I.D. Walker, T.W. Spithill (Australia, USA) 19

A polymorphic minisatellite sequence in the subtelomeric regions of chromosomes I and V in *Leishmania infantum*
C. Ravel, P. Wincker, P. Bastien, C. Blaineau, M. Pagès (France) 31

The secretory pathway of *Plasmodium falciparum* regulates transport of p82+ RAP-1 to the rhoptries
R.F. Howard, C.M. Schmidt (USA) 43

Restriction enzyme-mediated integration elevates transformation frequency and enables co-transfection of *Toxoplasma gondii*
M. Black, F. Seeber, D. Soldati, K. Kim, J.C. Boothroyd (USA, Germany) 55

Glycosyl inositolphospholipid-anchored structures in *Herpetomonas davidi*
P.Bütikofer, M. Boschung (Switzerland) 65

Glucose transport in amastigotes and promastigotes of *Leishmania mexicana mexicana*
R.J.S. Burchmore, D.T. Hart (UK) 77

Complementation of a *Toxoplasma gondii* ROP1 knock-out mutant using phleomycin selection
D. Soldati, K. Kim, J. Kampmeier, J.-F. Dubremetz, J.C. Boothroyd (USA, France) 87

Short Communications

Cloning and expression of the adenine phosphoribosyltransferase gene from *Leishmania donovani*
T. Allen, H.-Y. Hwang, K. Wilson, S. Hanson, A. Jardim, B. Ullman (USA) 99

The *Plasmodium cynomolgi* merozoite surface protein 1 C-terminal sequence and its homologies with other *Plasmodium* species
S. Longacre (France) 105

Human serum resistant *Trypanosoma brucei rhodesiense* accumulates similar amounts of fluorescently-labelled trypanolytic human HDL_3 particles as human serum sensitive *T.b. brucei*
P. Lorenz, J.S. Owen, D.G. Hassall (Switzerland, UK) 113

Molecular characterization of the mitochondrial heat shock protein 60 gene from *Trypanosoma brucei*
F. Bringaud, S. Peyruchaud, D. Baltz, C. Giroud, L. Simpson, T. Baltz (France, USA) 119

Merozoite surface antigen 2 (MSA-2) gene of *Plasmodium falciparum* strains from India
P. Bhattacharya, P. Malhotra, P. Sharma, D.M.N. Okenu, V.S. Chauhan (India) 125

Research Papers

Molecular cloning of a gene from *Plasmodium falciparum* that codes for a protein sharing motifs found in adhesive molecules from mammals and Plasmodia
F. Trottein, T. Triglia, A.F. Cowman (Australia) 129

COS cell expression cloning of Pfg377, a *Plasmodium falciparum* gametocyte antigen associated with osmiophilic bodies
P. Alano, D. Read, M. Bruce, M. Aikawa, T. Kaido, T. Tegoshi, S. Bhatti, D.K. Smith, C. Luo, S. Hansra, R. Carter, J.F. Elliott (Italy UK, USA, Canada) 143

Analysis of *pfmdr1* and drug susceptibility in fresh isolates of *Plasmodium falciparum* from Subsaharan Africa
L.K. Basco, J. Le Bras, Z. Rhoades, C.M. Wilson (France, USA) 157

Processing and transport of a lysosomal membrane glycoprotein is developmentally regulated in African trypanosomes
R.J. Kelley, M.J. Brickman, A.E. Balber (USA) 167

Ouabain-sensitive Na^+,K^+-ATPase in the plasma membrane of *Leishmania mexicana*
P. Felibertt, R. Bermúdez, V. Cervino, K. Dawidowicz, F. Dagger, T. Proverbio, R. Marín, G. Benaim (Venezuela) 179
The *Leishmania* promastigote surface antigen 2 complex is differentially expressed during the parasite life cycle
E. Handman, A.H. Osborn, F. Symons, R. van Driel, R. Cappai (Australia) 189
Phenotype and genotype diversity in the circumsporozoite proteins of *Plasmodium vivax* in Thailand
P. Rongnoparut, N. Supsamran, J. Sattabongkot, N. Suwanabun, R. Rosenberg (Thailand) 201

Short communications
Absence of the glutamic acid/alanine-rich protein (GARP) genes in the *Nannomonas* species *Trypanosoma simiae* and *T. godfreyi*
L.H. Garside, W.C. Gibson (UK) 211
Sequence and immunogenicity of the 23-kDa transmembrane antigen of *Schistosoma haematobium*
J. Inal, Q. Bickle (UK) 217
Molecular evidence for a close relative of the arthropod endosymbiont *Wolbachia* in a filarial worm
M. Sironi, C. Bandi, L. Sacchi, Barbara Di Sacco, G. Damiani, C. Genchi (Italy) 223
Evidence for the smallest nuclear genome (2.9 Mb) in the microsporidium *Encephalitozoon cuniculi*
C. Biderre, M. Pagès, G. Méténier, E.U. Canning, C.P. Vivarès (France, UK) 229
Sequence and structural characterization of the spliced leader genes and transcripts in *Phytomonas*
L.R. Nunes, M.M.G. Teixeira, E.P. Camargo, GA. Buck (USA, Brazil) 233
The structural gene for carbamoyl phosphate synthetase from the protozoan parasite *Babesia bovis*
K. Chansiri, A.S. Bagnara (Australia) 239
Molecular cloning and characterization of an *Echinococcus multilocularis* and *Echinococcus granulosus* stress protein homologous to the mammalian 78 kDa glucose regulated protein
F. Mühlschlegel, P. Frosch, A. Castro, H. Apfel, A. Müller, M. Frosch (Germany) 245

Contents of Volume 74 251

Instructions to Authors
